

# PORTABLE COVID ISOLATION / MULTIPURPOSE UNITS

**HABITAT N SKINS**  
Architects & Hospital Designers

PORTABLE ISOLATION COVID CARE UNITS-**PICCU R**

**NEVER BEFORE  
INNOVATION**

## Exciting Highlights

- Isolation for COVID mild symptoms/asymptomatic near home without being a danger to other family members or friends.
- Remain in care of family and friends.
- Home cooked food, health care and other necessities made easy.

- Ideal for housing societies with in-house help quarters/ commercial buildings/ Malls for their captive staff isolation/ Government agencies/ Realtors with the compassion for in house workers at site and congested localities with limited space.
- Units are prefabricated and can be set up in 1 to 2 days after it is transported to site .Naturally ventilated and comfort living for isolation period.

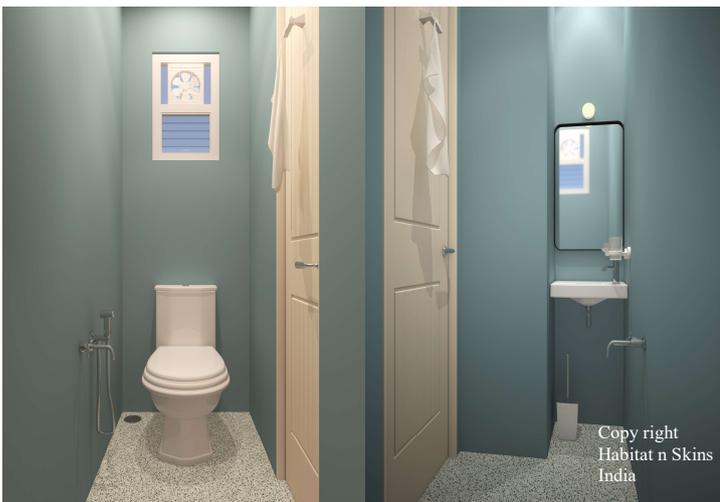

- Flexible change of use post COVID pandemic. Since the pandemic situation is here to stay for a year or more, units that are now basically designed as COVID isolation unit can be shifted to any place later and transformed to multipurpose usage like
  - \* Play area, Club house, Society office, storage area
  - \* Indoor nursery, Educational classroom setup etc.
